

Hello Brothers & Sisters BAC of Local 1 WA,

As time seems to stand still these days, a Dental Emergency does not! Unfortunately dental emergencies happen even during a pandemic and the word should get out to BAC Local 1 WA union members and our communities that Sunrise Dental is open for emergencies, unlike most dental practices, so that you know where you can go.

Sunrise Dental partnering offices is offering ***FREE Emergency Palliative Dental Treatment**. Regardless of your benefits status or loss of job even those that have lost their dental benefits and have financial hardship, we will take care of you.

- 50 NW-Sunrise Dental locations have agreed to open at least ONE DAY a week to take emergency patients and then be on call for emergencies that cannot wait.
- We provide Quality Dentistry and Use Quality Materials
- All locations are CDC compliant & offer a safe and clean environment; *we adhere to ADA Guidelines for COVID-19.*
- Our offices are preferred providers with most dental insurances.
- All offices are small union businesses and owned by practicing dentists, NOT corporate dentistry.

Please visit our website to contact the location nearest you: www.sunrisedental.com Check our attached list of locations. If you find the location nearest to you busy, please call: 1-877-770-3077 so we may accommodate you at another location.

If you have questions, I am at your service!
We are here for BACLocal1WA members.
Be safe.

In Solidarity,

Mike
